INTRODUCTION

GENERAL TEST-TAKING DIRECTIONS

Longman Preparation Series for the New TOEIC® Test: More Practice Tests will give you the practice you need to do well on the new TOEIC test. When you take the tests in this book, you should pretend that you are actually taking the TOEIC test. Make sure that you have enough time to complete each section of the test. It is not necessary to take the whole test all at once if you do not have enough time. However, you should not spend more time than is allowed for each part.

You will need a soft lead pencil and a copy of one of the answer sheets from the back of the book. All answers for the TOEIC test will be marked on a similar sheet. Do not write in your book. This will allow you to take the test more than once. When you mark your answer sheet, completely fill the oval. Do not make any marks outside of the oval. If you do not know the answer to a question, guess. You may guess correctly!

The answers for the Practice Tests are in the back of the book. Each answer has a short explanation. These explanations refer you to study materials found in other books in the *Longman Preparation Series for the New TOEIC® Test*. These books, titled *Introductory Course*, *Intermediate Course*, and *Advanced Course*, are available at your bookstore or from your local Longman representative.

You will find a Conversion Table and Chart on pages 261–262. The table and chart will give you an approximation of what your TOEIC test scores might be. Please note that this is an approximation, not an actual TOEIC test score.

Listening Comprehension

Notice the headphone symbol used throughout the book. This symbol means you will need a CD player and the CD for the Listening Comprehension sections. If you do not have the CD, you may have someone read you the questions from the audioscript. The audioscript is in the back of this book.

There are four parts to the Listening Comprehension section.

	NUMBER OF QUESTIONS	TIME
Part 1: Photos	10	45 minutes
Part 2: Question-Response	30	
Part 3: Conversations	30	
Part 4: Talks	30	
TOTAL	100	

Reading

You will only need the test book, an answer sheet, and a pencil to do the Reading section. There are three parts to the Reading section of the test.

	NUMBER OF QUESTIONS	TIME
Part 5: Incomplete Sentences	40	1 hour and 15 minutes
Part 6: Text Completion	12	
Part 7: Reading Comprehension		
• Single Passages	28	
• Double Passages	20	
TOTAL	100	

NEW TOEIC® TEST DIRECTIONS

GENERAL DIRECTIONS: The following general directions are provided by the Educational Testing Service (ETS®) and are reprinted here with permission. Read them and be sure you understand them.

Test of English for International Communication

General Directions

This test is designed to measure your English language ability. The test is divided into two sections: Listening and Reading.

You must mark all of your answers on the separate answer sheet. For each question, you should select the best answer from the answer choices given. Then, on your answer sheet, you should find the number of the question and fill in the space that corresponds to the letter of the answer that you have selected. If you decide to change an answer, completely erase your old answer and then mark your new answer.

PRACTICE TESTS

PRACTICE TEST ONE

You will find the Answer Sheet for Practice Test One on page 255. Detach it from the book and use it to record your answers. Play the audio for Practice Test One when you are ready to begin.

LISTENING TEST

In the Listening test, you will be asked to demonstrate how well you understand spoken English. The entire Listening test will last approximately 45 minutes. There are four parts, and directions are given for each part. You must mark your answers on the separate answer sheet. Do not write your answers in the test book.

PART 1

Directions: For each question in this part, you will hear four statements about a picture in your test book. When you hear the statements, you must select the one statement that best describes what you see in the picture. Then find the number of the question on your answer sheet and mark your answer. The statements will not be printed in your test book and will be spoken only one time.

Example

Sample Answer

- (A) (B) (C) (D)

Statement (C), "They're standing near the table," is the best description of the picture, so you should select answer (C) and mark it on your answer sheet.

Questions 155–157 refer to the following article.

These days, everybody buys computer software. Consumers purchase all kinds of software, from games for the kids to highly sophisticated professional programs and everything in between. Computer software has become part of everybody's daily life, and this is just one more thing adding to an ever-growing problem. The excessive packaging on computer software is joining catchy wrappers, durable plastic and cardboard boxes, plastic jugs, and other types of packaging in the trash. Everything we buy is packaged in one way or another. When we get our purchases home, we unwrap them and throw the packaging in the trash. It then ends up in the nation's garbage dumps. Communities all around the country are struggling with the problem of where to put all this waste. Much of this excessive packaging serves only to make the products more attractive to consumers. It catches the eye but does not really protect the goods from damage. Environmentalists are asking consumers to say "No!" to wasteful packaging practices. Please purchase only those products that come with a minimum of packaging or that are packaged in 100% recycled materials.

Questions 161–164 refer to the following report.

The Postal System has announced that postal rates are going up yet again. On the first of the year, the price of a first-class stamp will rise by 8 cents. Express mail and priority mail rates will increase by 20 percent. The rates for third-class mail will also go up, while the special book rate will be entirely eliminated. Special services such as Delivery Confirmation, Return Receipt, and Overnight Delivery will also cost more, and it has even been announced that rental rates on post office mail boxes will increase.

Everybody everywhere will be paying more for postal services next year, but one sector will be particularly hard hit. Direct-marketing companies rely on the postal system to carry out their business. These companies include catalog houses as well as sellers of mailing lists. Postal services account for a significant percentage of their costs.

Direct-marketing companies say the proposed increases in postal rates will hurt their industry and will likely even drive some into bankruptcy. “Our business is carried out almost entirely through the mail,” says Esther Bergen, president of Mega Marketers, Inc., one of the largest direct-marketing companies in the country. “Of course these increases will hurt us. They will have a huge effect on the way we do business.” Direct-marketing companies rely mostly on third-class mail, which is expected to have rate increases as high as 30 percent. Will this mean less junk mail arriving at your doorstep? “Possibly,” says Bergen. “But the more likely outcome is that the smaller companies, which will have more difficulty absorbing the costs of the rate increases, will go under, while the larger companies will stay in business and take over the markets now covered by the smaller companies. There will probably be some increases in prices of mail-order products, but not enough to drive the average consumer away.”

161. The word “drive” in paragraph 3, line 2, is closest in meaning to
- (A) force
 - (B) operate
 - (C) transport
 - (D) remove
162. According to the passage, who will be most affected by this change?
- (A) Direct-marketing companies
 - (B) Greeting card manufacturers
 - (C) Postal employees
 - (D) Stamp collectors
163. According to the passage, what rate do most direct-marketing companies use?
- (A) Book rate
 - (B) First class
 - (C) Third class
 - (D) Proposed rate
164. What are the catalog houses in this report?
- (A) Preferred postal clients
 - (B) Direct-marketing companies
 - (C) Financially stable companies
 - (D) First-class mail users

Questions 165–168 refer to the following information.

1. The One-Call System

In most states, natural gas industry-supported laws require contractors and private landowners to call the local One-Call number before beginning any kind of digging. With forty-eight hours' notice, a pipeline operator will locate the pipeline and mark it clearly. Any damage at all to a pipe—even the slightest scratch—could lead to a leak later on. Whether One-Call has become the law in your state or not, you can help keep pipelines safe by calling the number on the right-of-way markers before you dig.

2. Leak Detection

Most pipelines are operated twenty-four hours a day from a control station, using telephone, satellite, or microwave communications systems. Computers are widely used to monitor conditions along the line every ten to sixty seconds, sounding an alarm if they detect any abnormality or sudden change in pressure. In the event of an alarm, valves can be closed and nearby pipeline crews dispatched within minutes.

3. Emergency Response Preparedness

Although leaks occur infrequently and rarely result in a fire, readiness for any emergency is a crucial responsibility for pipeline companies. Federal and state laws supported by the natural gas industry require pipeline companies and local police and fire departments to maintain a coordinated plan of response and to practice for an emergency by staging drills. These drills and personnel training programs emphasize the need for immediate action and for cooperation between the various rescue agencies and the pipeline company.

4. Public Awareness

The One-Call system, state-of-the-art leak detection equipment, and emergency response procedures have all been put in place with one thing in mind—the safety of you, the public. Please visit the website of the Natural Gas Association to find out more about our safety procedures, tips for using natural gas safely in your home, and information on what to do if you see someone tampering with pipeline right-of-way markers.

165. What is the main focus of this passage?

- (A) fired
(B) fixed

Questions 175–176 refer to the following report.

When personal computers first began showing up in offices around the world, people believed that this business tool would lead to something called the “paperless office.” This was hailed as a great advance in business practices.

The “paperless office” theory went something like this: people would store their information on disks and computers instead of using file folders and paper. As a result, paper use would decrease. This was supposed to help preserve natural resources as well as reduce the world’s solid-waste disposal problem.

In some ways this theory has played out in practice. In offices everywhere around the world, files and records are increasingly being stored electronically rather than on paper. But the prediction has not proven to be entirely true. Documents are often printed out in part or in their entirety in order to be reviewed or shared with others. Often multiple versions of a document go through the printout stage, thus actually increasing the use of paper for each document rather than reducing it. In addition, computers have made it easier to generate notices and flyers, of which people readily make multiple copies to distribute to as wide an audience as possible. In some ways, computers have made it easier than ever before to use large quantities of paper.

So, while computers have reduced paper use in some areas, they have increased it in others. The issue of felling forests in order to manufacture paper and the question of how to dispose of so much solid waste still remain problematic.

175. What is the report about?

- (A) Selling computers
- (B) Desktop publishing
- (C) The “paperless office”
- (D) World problems

176. What would the “paperless office” have done?

- (C) Cut costs
- (D) Improved communication

Mr. Joey Farina
Restaurant Manager
Fish Market Restaurant
905 North High Street
Baltimore, MD 21002

Dear Mr. Farina:

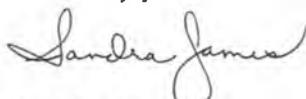

I received your purchase order yesterday, and I need to go over a few items with you. Please call me as soon as you receive this letter. April 16 is coming soon and I have not been able to reach you to discuss the order. Have you received my voicemail messages? We normally need ten days between receiving a purchase order and filling it. You must pay an express service charge of \$100 in order to have the order filled by April 16.

I've checked with our suppliers, and we can provide 300 pounds of shrimp and 250 pounds of salmon at the present time. We will provide the remainder as soon after April 16 as possible, if that suits you.

Finally, a correction needs to be made to the shipping/handling fee on the purchase order. Our usual charge for this is twice as much as you assumed. I'm enclosing a revised bill for you. With the express service charge, the change in quantity of shrimp and salmon, and the recalculated shipping/handling fee, your new total comes out to \$6,480.

Please call or e-mail me today so that we can discuss your order. Thank you for working with Super Seafood Suppliers.

Sincerely yours,

Questions 178–180 refer to the following announcement.

TWO TYPES OF TRAINING

There are two common forms of employee training—on-the-job training and off-the-job training. On-the-job training is the most widely used and least expensive form of training. It consists of an employee learning from a supervisor or co-worker how to do the job. On-the-job training could be described as an apprenticeship. It is efficient because it is done at the workplace while the employee is fulfilling work duties. As time goes by, the employee becomes more and more skilled at the job and eventually can train other employees in turn.

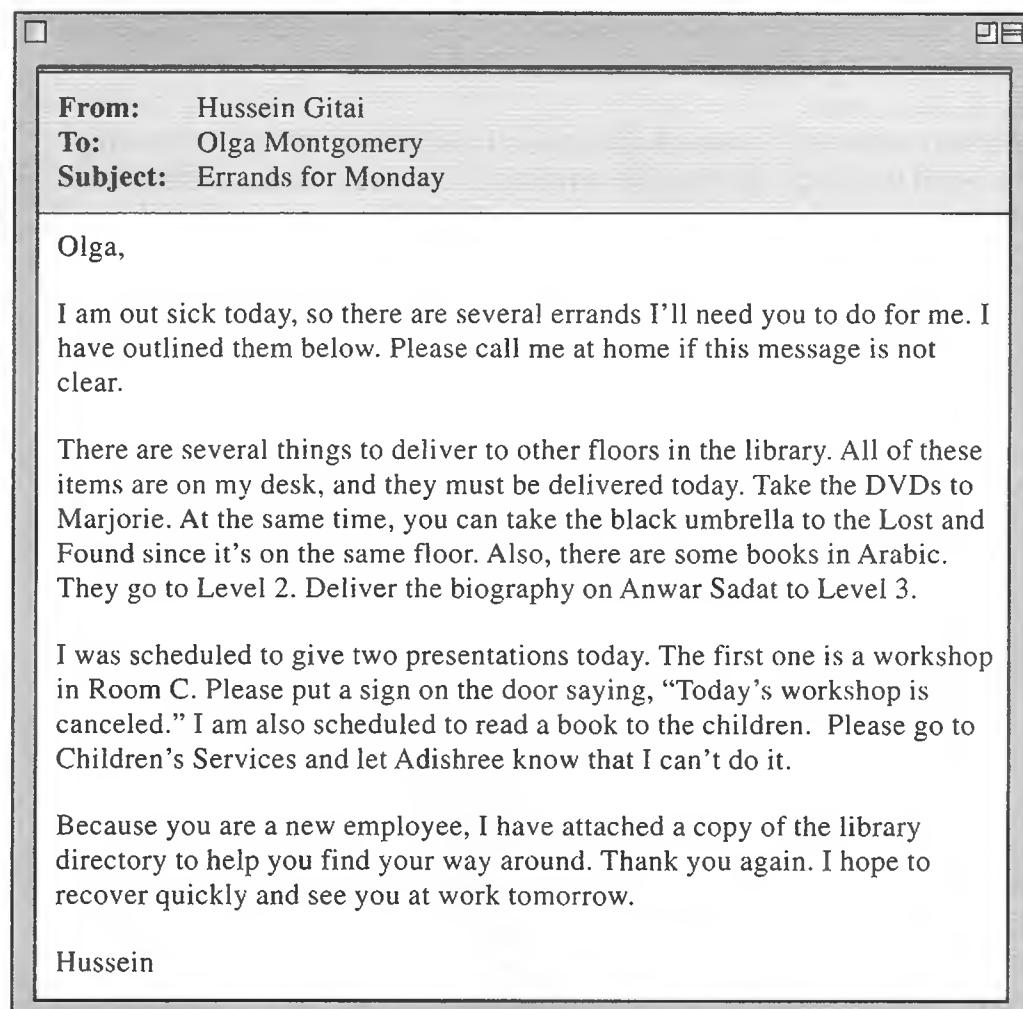

Off-the-job training is the most expensive form of training. It consists of an employee being sent away from the workplace to a training program where training is provided. It is less efficient because it requires the employee to take time away from work duties. In addition, depending on where the training site is located, travel and accommodation expenses may be incurred. And of course, fees must be paid to the person or organization providing the training.

When deciding which form of training to provide, an employer must consider such things as the availability of staff with necessary skills and time to provide on-the-job training and the types of off-site training available, in addition to the expense. It may well be decided that off-the-job training is worth the cost. While the requirements are different for on-the-job training as compared to off-the-job training, the purpose of both types is the same—to improve employee efficiency and productivity.

178. Which of the following best describes on-the-job training?
- (A) Expensive
 - (B) Ineffective
 - (C) Common
 - (D) Quick
179. What is on-the-job training similar to?
- (A) An apprenticeship
 - (B) Off-the-job training
 - (C) A supervisory position
 - (D) A company benefit
180. According to the passage, what is the purpose of training?
- (A) To improve employee efficiency
 - (B) To spend excess capital
 - (C) To satisfy government requirements
 - (D) To please a supervisor

Dear Ms. Tuncay:

Thank you for contacting us to learn more about our environmentally friendly products. We suggest that you try a sample of our materials first. If you are happy with them, then you can buy more. If your order totals \$10,000 or more, then we will reduce your shipping/handling fee by 3%. We prepared a purchase order for you so that you can try a sample of our products.

Our products may seem to cost more up front than other similar products. For example, you pay \$200 more for our standard carpet than you would for a similar carpet that is not environmentally friendly. However, you save money in other ways. Because our carpets are made of special materials, they are much easier to clean and maintain.

One motion light is double the price of a regular light. However, motion lights save you money on electricity bills because the light stays on only when people are in the room. Also, the solar panels provide free energy. We suggest that you try the panels in several places on your building.

To buy the materials, please sign the purchase order. You may fax it to us, with your credit card number. We will ship the supplies immediately. Thank you for your business.

Yours truly,

Peter Lindstrom

Message:

I hope your business trip is going well. Today's meeting went well for the most part, even though it began 30 minutes late. Jorgen wasn't there at the beginning, so I used his time slot to give my report. Jorgen finally arrived at 9:30 and gave his report. The board members were surprised to hear that job applicants complain about our salary offers. Jerry's report really shocked and upset the board. Fortunately, Madeira's report had the opposite effect. Everyone was happy to hear about our great profits.

The technology upgrades report didn't go so well. Jerry had to leave the meeting before his report because there was an Internet problem in the Electrical Engineering department. Because of this, the presenter for our third agenda item read Jerry's report, and it was a bit confusing. She didn't really know what she was talking about and couldn't answer questions satisfactorily. We decided to ask Jerry to provide written answers to questions raised by board members during the meeting.

Because we started late, we finished a half hour late, but we still had to hurry to finish within the allotted time. We decided to make the next board meeting a half-hour longer to give more time for discussion and questions.

196. What time did the meeting start?
- (A) 8:30
(B) 9:00
(C) 9:30

(B) 2½ hours
(C) 3 hours
(D) 3½ hours

There are four parts, and directions are given for each part. You must mark your answers on the separate answer sheet. Do not write your answers in the test book.

PART 1

Directions: For each question in this part, you will hear four statements about a picture in your test book. Questions 156–158 refer to the following article.

When a position becomes vacant, finding a new employee with the skill-set and personality that suit the needs of that particular workplace is a challenge that many companies face. First, the company must outline the tasks and responsibilities involved in the position to be filled. A careful analysis of these will help the company define what skills, abilities, and knowledge an employee must have in order to carry out the job successfully. Often it is the process of writing the job description and vacancy announcement that helps the company define the qualities they seek in a new employee.

Once the requirements of the position are defined, the next challenge is to find the person who can meet those requirements. One of the most common ways to locate a qualified person to fill a vacant position is to look within the organization itself. Is anyone currently working for the company who could do the job? This is often the best way to find qualified people. They are already known to the company, have been successful in it, and are familiar with its people, procedures, and policies.

If there is no available person within the company who is qualified to fill the vacancy, then someone must be sought outside the organization. Some of the most common sources of new employees are educational institutions such as high schools, junior colleges, four-year colleges, and universities. Companies also use newspapers and industry association newsletters to help locate job applicants.

 - (D) Going to high school

Questions 162–165 refer to the following announcement.

San Juan Academy has developed a unique approach to dealing with underachieving students. Instead of doling out punishment for incomplete assignments, or assigning extra hours of tutoring for bad grades, the academy provides failing students with a reward. Through the Computers for Success program, San Juan Academy students who fall behind their classmates in reading and mathematics are given their own computers. For nine weeks, the students get to keep a personal computer with a printer and software in their homes. They can work and play with the computer whenever they like and as often as they like.

Is this a prize for being bad in school? “It may look that way to an outsider,” says school principal Edna Seymour, “but this approach is actually well-backed up by research. Studies show that students who are computer literate do much better in school. The figures rise for students who actually have a computer at home, and are even higher for students from homes where most of the family members are comfortable using a computer.”

Because of this, when a student is given a computer to take home, families are encouraged to get into the act, too. Students in the Computers for Success program are required, together with their parents and siblings, to attend a weekend computer seminar. This way everyone in the family becomes familiar with the use of the computer. This is an investment in the students’ educational future. “It is widely accepted that parental involvement makes all the difference in a child’s school success,” says Principal Seymour. “We are extending that idea to involve families in our computer literacy program. As part of that program, we make it possible for families to buy refurbished computers at an affordable price. Many of our families have already taken advantage of this opportunity. On the whole, we have been very pleased with the Computers for Success program.”

Questions 166–169 refer to the following article.

We most often think of communication as talking, but it commonly occurs in other forms as well. In addition to words, communication can occur in the form of pictures or through actions.

When we speak or write, we are using words to communicate our ideas and feelings. It is essential for people to use words effectively in order to communicate clearly. Although words may seem straightforward, they are as subject to misinterpretation as any other form of communication.

Pictures can be a quite powerful form of communication. You will understand this if you think of any great work of art. Businesses can successfully use pictures in posters, charts, signs, and packaging. When combining words and pictures, the design should be carefully planned out. The pictures used on posters and charts, as well as in brochures and advertisements, should complement rather than conflict with the words.

Action is an important form of communication that we are often unaware of. As the adage says, “Actions speak louder than words.” This medium is most important when dealing face-to-face with employees, colleagues, and clients. A frown, a handshake, a wink, and even silence all have meaning and people will attach significance to these actions. Just as it is important to choose our words carefully, it is also important to be aware of our actions and of how they may be perceived by others.

166. What is the main topic of the article?
- (A) Marketing
 - (B) Communication
 - (C) Actions
 - (D) Businesses
167. According to the article, which of the following is used the most?

Questions 174–177 refer to the following article.

Absenteeism is an ongoing problem in many companies, and the Stummering Corporation was no exception. Absenteeism and late arrival had been issues there for a long time, so management decided to study the problem. During the months of January through June of this year, employee absentee rates and arrival times were monitored. It was discovered that the average employee was showing up for work fifteen minutes late three times a week. In addition, the study showed that the majority of employees were missing a minimum of one day of work per month. Aside from the direct effects this situation was having on productivity, it was also creating a noticeable impact on employee morale. Management knew that this was a serious problem and that something had to be done right away.

Human Resources suggested that management undertake an incentive program. A plan was devised whereby every employee who arrived at work on time every day during the month of August would be eligible for a cash award. Within five days of the announcement, the number of late arrivals had declined to the lowest level the company had ever experienced. The company decided to extend the program so that employees who didn't miss any days of work for the rest of the year (exclusive of approved vacations) would also be eligible for a cash award. As a result, absenteeism declined dramatically. Stummering plans to continue the program into next year and is looking into making it permanent company policy. This successful program could easily be replicated at other companies. It worked for Stummering. It could work for you.

We can go tomorrow or later in the week if you prefer. There are some special events that you might enjoy, too. That company that you just bought stock in is giving a presentation on January 22. The company's president is speaking. You will probably want to see the security demonstration, too, since you're a police officer.

Questions 168–171 refer to the following article.

Business travelers find that some jobs take them away from home for longer than a few days at a time. Those who find themselves at a new job site for weeks or even months often find it more comfortable and economical to stay at an apartment-hotel rather than a traditional style hotel. The comfort and convenience of these short-term residences are making them more and more popular among frequent business travelers. They provide advantages that more luxurious traditional hotels do not. Apartment-hotels offer both small and full-size apartments that are available to rent on a weekly or monthly basis. Apartments are fully furnished with everything from sofas and writing desks to dishes and silverware. They also usually include cable TV service and Internet access. Best of all, they are run like hotels, with cleaning and linen services, exercise rooms and restaurants, and a desk clerk to take messages and help tenants with questions about the city. In addition, the prices are much more reasonable than the rates normally charged at a traditional hotel. One of the reasons that many apartment-hotels are economically priced is that they are often not found in a city's downtown area. This is not necessarily a disadvantage, however. They are usually conveniently located near public transportation, so the expense of a rental car is not always necessary. In short, apartment-hotels offer a convenient alternative to the business traveler, as they are more cost-effective than traditional hotels and more comfortable than hastily furnished apartments. Many business travelers find that apartment-hotels are as comfortable as it is possible to be away from home.

168. Why are these residences called "apartment-hotels"?
- (A) They have characteristics of apartments and hotels.
 - (B) They contain full-sized apartments.
 - (C) They look like hotels.
 - (D) They have only short-term tenants.
169. Who would be likely to use an apartment-hotel?
- (A) A businessperson on an overnight trip
 - (B) A family of tourists
 - (C) An engineer on a ten-week project away from home
 - (D) A consultant in town for a convention
170. What is NOT mentioned as an advantage of apartment-hotels?
- (A) They are furnished.
 - (B) They have cleaning service.
 - (C) They are centrally located.
 - (D) They have a desk clerk on duty.
171. How do apartment-hotels compare with standard hotels?
- (A) The rooms are larger.
 - (B) They are not as comfortable.
 - (C) There are fewer services offered.
 - (D) They are less expensive for a long stay.

Questions 172–174 refer to the following article.

Surveys have found that wages and benefits are not always the major determining factor for employees who are looking to move between jobs. David Bikowski is a case in point. Last year he was laid off from his production job at a factory where he had worked for close to eight years. After several months of searching for a new job, he found employment at another factory in a nearby town. Although he would earn \$100 a week less in the new position than he did at his old one, he took the job. He has a family to support and couldn't afford to stay out of work much longer. Just a few months after starting at his new position, he received an offer to return to his old job at his old salary. Bikowski decided to turn the offer down. Why? Because, he says, he finds that his new workplace is much less stressful than the old one. "We've been able to get by on what I've been earning at Strathmore (his new employer), and I know I'll be getting the usual raises as time goes on," he explains. "And it's better for my family in ways that money can't pay for. I'm more relaxed when I get home, I have better quality time with my kids. That's worth more than money to me." Bikowski represents a growing sentiment among the country's workforce. More and more workers are looking for less stressful lives, sociologists say. Work conditions are often given equal weight with wages and benefits when job decisions are made.

172. Why did David Bikowski leave his job?
- (A) He wanted a promotion.
 - (B) He was fired.
 - (C) He wanted more money.
 - (D) He was laid off.
173. How does Mr. Bikowski's present salary compare to his salary at his previous job?
- (A) It is \$100 less a week.
 - (B) It is \$100 less a month.
 - (C) It is \$100 more a week.
 - (D) It is \$100 more a month.
174. According to the article, why did Mr. Bikowski stay at his new job?
- (A) The salary is better.
 - (B) The new job is less stressful.
 - (C) He has become a supervisor.
 - (D) He prefers working close to home.

Dear Ms. Wendel:

January 2nd, 20__

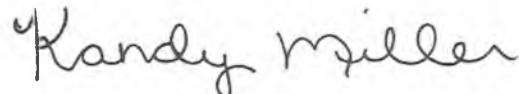

I understand that you are in charge of the fundraising events for the Heart and Stroke Research Fund of Central Canada. My colleague, Jessica, suggested that I contact you about getting some brochures for our office. We need information on the half marathon that is taking place in Toronto on the weekend of July 1st–3rd.

When I looked at the Heart and Stroke website, I noticed that your name was among the female runners who finished in the top ten last year. Jessica was surprised to hear that in addition to managing the fundraiser, you also participated in the race. You must be in excellent shape! Are you running this year?

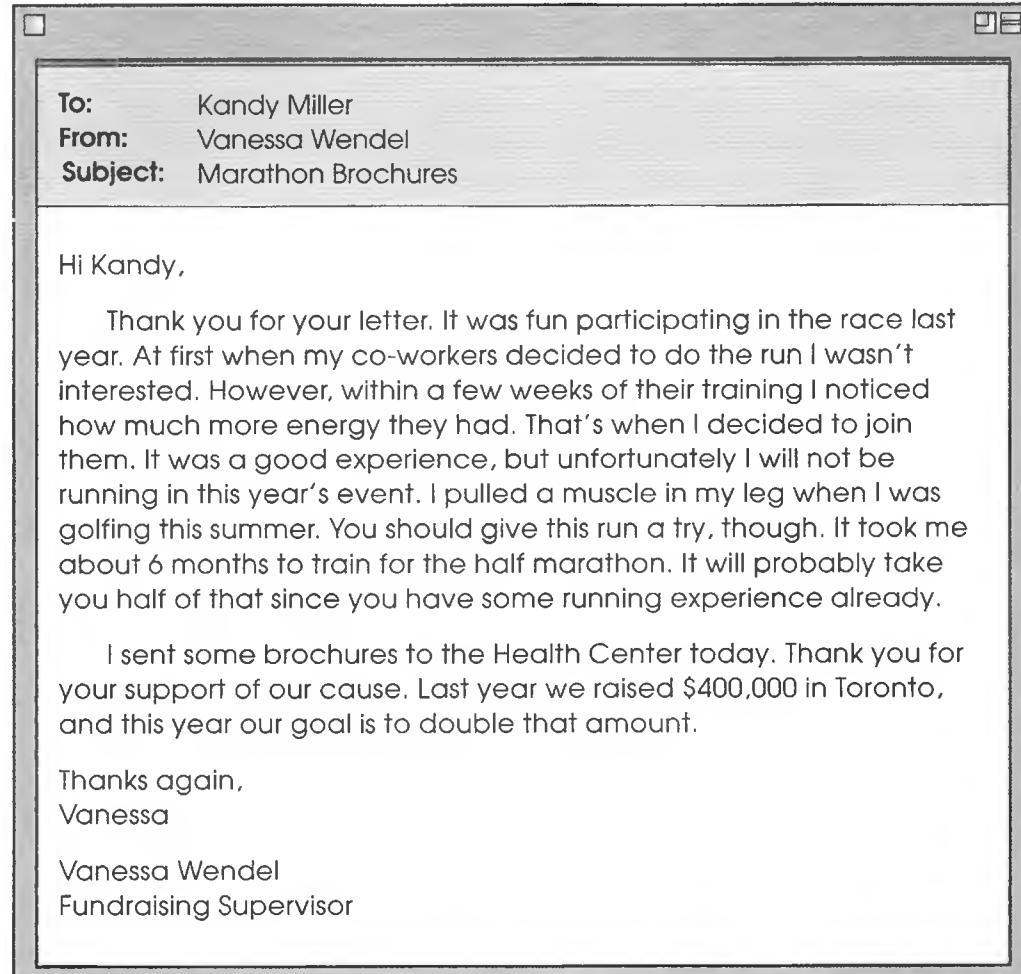

I would appreciate your sending some brochures for the center. I'd like to know more about the race myself. I've been thinking about entering, but I'm not sure if I am ready to run a half marathon. I think I should start with a ten-kilometer run. Currently I run about 20 kilometers each week.

Hope to hear from you soon.

NOTICE

The four parking garages for Mansfield Towers will be closed at various times during the last three weeks of June for cleaning and repainting. Please make alternative arrangements for parking during this period. Make sure to inform the receptionist in the lobby if you are expecting clients from out of town in June. We will issue temporary parking passes for the garage at 5th and Main for our clients. These passes can be purchased for a fee of \$2.00 a day during the month of June, but are reserved for regular clients, not employees. There are five spots available for these clients, and these will be assigned on a reservation basis only.

Note: Parking on Green St. or Howe Ave. is strictly prohibited. Cars that are illegally parked will be ticketed and towed. For information about other local parking garages call the city help line at 800-555-9000.

FOR: Niels Henrikson

RECEIVED BY: Dagmar

CALLER: Eva Pederson

MESSAGE: Eva Pederson called this morning. She read a notice in the lobby today, and is concerned about parking for the upcoming conference in mid June. She said that at least 50 potential clients have already committed to the conference and about 30 more have not yet responded to the invitation. She is expecting at least 60 people or more. She wants to know where these people are going to park since the parking garage will be closed. Eva thinks the Calvin St. parking garage is open on the weekends, but it's at least a ten-minute walk to the conference room. This doesn't give a very good first impression considering these may one day be important clients. Call her with any ideas.

To Whom It May Concern,
 Below you will find my travel itinerary. Again, I'm sorry that I wasn't able to book my trip for the weekend of the 3rd as you requested. That weekend would have been perfect for me as well. I leave Tokyo at 4 P.M. on the 10th. Unless I hear from you before I leave, I will assume that one of you will meet me at the airport with a sign. I have never been to Tokyo before, so I would prefer not to have to hire a taxi or find my own way to the hotel. I look forward to discussing franchise opportunities and to meeting all of you. I will have my checkbook with me in case we work out a deal right away.
 Thank you,
 Kit-ken Lim
 P.S. I'll be wearing a green hat and a long black coat.

PART 3 (PAGES 10–12)

Questions 41 through 43 refer to the following conversation.

- Woman* I'd be happy to type your letter for you, but can it wait until after lunch? I'm in the middle of something right now.
- Man* Of course it can wait, just as long as it's mailed this evening.
- Woman* That won't be any problem. I have to finish copying this report, then I'll grab a bite to eat, then I'll do it. It'll be done by early afternoon.
- Man* Thanks. I really appreciate it. If you need me, I'll be in my office.

Questions 44 through 46 refer to the following conversation.

- Man* I just talked to the phone company. They promised to have the new phones installed by Wednesday before noon.
- Woman* Last week they said they would have it done by Monday afternoon, but it wasn't.
- Man* Well, you remember there was a mix-up with the order. They were here on time, but they brought the wrong kind of phone.
- Woman* Yes, that was a big disappointment. I'm beginning to think this phone company isn't very reliable. We've been waiting over a month to get those phones in place. I can't believe that it's taking so long.

Questions 47 through 49 refer to the following conversation.

- Man* I need twelve dozen ballpoint pens.
- Woman* Do you want any specific color?
- Man* Oh, I hadn't thought about that. Well, all right, I'll take six dozen red pens, four dozen black, and two dozen purple.
- Woman* I'll have to check for the purple.... Hmm, according to our inventory list we have some in the back. I'll have someone bring them out. Your total for 12 dozen pens comes to seventy-five dollars exactly, including tax.
- Man* Let me see what I have in my wallet. Oh, yes, here's a one-hundred dollar bill.

Questions 50 through 52 refer to the following conversation.

- Woman* The meal was delicious. It really hit the spot. You're a great cook.
- Man* But you hardly touched a thing. You should at least have some more dessert. I made it especially for you because I know it's your favorite.
- Woman* Thank you, but I couldn't, really. I already had two pieces of cake. Not to mention the three courses that preceded that. But I'd love a cup of that delicious coffee you make.
- Man* I'll be happy to make it for you. I'll have it ready in just a few minutes. You take cream and sugar, right?
- Woman* Just sugar, thanks. And take your time, please. I'm happy to just sit here and relax for a while.

Questions 53 through 55 refer to the following conversation.

- Man* You have got to learn to relax. You need to take a vacation or play a little golf or take up gardening.
- Woman* I'd like to take your advice, Doctor, but I have to work. I have a lot of responsibilities.
- Man* I'm sure you do. We all do, but if you keep up with this crazy pace, you may never work again. You're ruining your health. You need to find a way to ease up a little.
- Woman* Well, maybe I could take on an assistant to help me out some with work.

Questions 56 through 58 refer to the following conversation.

- Woman* Spring is my favorite season. I just love the cool rains. They're so refreshing, and everything is so green and new. It always makes me feel so happy.
- Man* I know. I love it, too. It's really a beautiful time. I really dislike the summer months, though.
- Woman* I know. I can't stand the heat and humidity. I'm useless when the weather gets like that. But, you know, I think a sunny September day like today is nice, too. Very pleasant.
- Man* Yes, this is also a great time of year. The temperatures are quite comfortable, and the colors are so bright.

Questions 59 through 61 refer to the following conversation.

- Man* Come on! Aren't you ready to go yet? I've already got my raincoat on, and I'm standing by the door. Let's go already.
- Woman* I can't find my boots and umbrella. Can't you take a minute to help me look for them? I really don't want to go out on a day like this without them. You know how easily I get sick.
- Man* Come on. You've got a raincoat. That'll keep you dry. We're going to miss the bus if you don't hurry.
- Woman* Relax. We've got plenty of time. The bus won't leave for another 15 minutes, and I'm not leaving the house without an umbrella.

Questions 62 through 64 refer to the following conversation.

- Woman* Don't you live by the police station?
- Man* I used to live by the police station, but I didn't really like the neighborhood, so last year I moved to Mountain View Street. Now I live in a very nice house right by the school. Oh, that's right. Your house is that small yellow one on the corner, isn't it? The one with the spectacular garden. I pass it every day on my drive to work.
- Man* You do? Then maybe you can give me a lift sometime when the weather's bad. Normally I walk to work, and I really enjoy getting the exercise, but I'd rather not do it when it rains.
- Woman* I'm sorry. I thought you took the bus. Look, it's supposed to rain tomorrow. I'll pick you up at 7:30, OK?

Questions 65 through 67 refer to the following conversation.

- Woman* I didn't read this morning's paper or yesterday's, either. I didn't have time to get to the newsstand to buy one.
- Man* You should have it delivered. Then it would be waiting for you in your office every morning, and you would always be on top of the news.
- Woman* Well, it would be in my office every morning, but I still wouldn't have time to read it.
- Man* Well, let me tell you about the story I read on today's front page. I think you'll find it quite interesting.

Questions 68 through 70 refer to the following conversation.

- Woman* I'm exhausted. I didn't get to bed last night until after eleven.
- Man* Really? That's not so late, not unless you got up very early, of course.
- Woman* I did get up early. I got up at four. I usually get eight hours of sleep, but last night I got only five. That's not enough for me.
- Man* No, that wouldn't be enough for me, either. Why did you get up so early? Were you getting ready for a trip or something?
- Woman* No, I wanted to get to the office early because I had some extra work to finish. Even though it means getting up in the dark, I'd rather do that than stay at the office until late at night.

PART 4 (PAGES 13–15)

Questions 71 through 73 refer to the following advertisement.

Have you been looking for an affordable way to stock your office supply closet with quality products? Then don't miss this unique opportunity. You've always relied on Office Supplies Incorporated to provide you with the best products at the best prices. Now we are announcing our biggest sale of the year with fantastic savings on all items big and small, from pens to photocopy machines. Our doors open at eight A.M. tomorrow, and everything in the entire store will be reduced by 50 percent for three big days, Thursday through Saturday. Sale ends Saturday at six P.M., so hurry on down. Don't miss out on this great chance to save, save, save!

Questions 74 through 76 refer to the following weather report.

Good morning and welcome to another cold, gray day. That's right, folks, it looks like yesterday's weather will be with us again today. We'll have more freezing rain all day with a chance of snow later on this evening. This dreary weather will likely be with us for a few more days, though the weekend forecast is looking up. The low-pressure system should be moving out of our area by late Friday. Then we can expect sunny skies all weekend with a high temperature of around 11 degrees Celsius. So don't despair. Better weather is just around the corner. Tune in again at noon for an updated report on today's weather.

Questions 77 through 79 refer to the following news item.

This urgent item just in. The electricity company warns citizens living in the tri-state region that due to unusually high temperatures, the demand for electricity may exceed the supply. Air conditioners and fans are in constant use during this hot summer weather, putting an enormous strain on electricity supply. This increase in demand for electricity may result in power failures in scattered areas throughout the region. In order to help avoid blackouts, citizens are asked to keep their air conditioners set at temperatures no lower than 80 degrees Fahrenheit and to run them only intermittently during the hottest part of the day. In addition, any non-essential use of electrical appliances should be avoided during the middle of the day. If a power failure occurring in your neighborhood should cause a potentially life-threatening emergency, call the electricity company's emergency hotline at 555-9745. Emergency workers are standing by in your area ready to respond where needed.

Questions 80 through 82 refer to the following recorded announcement.

Thank you for calling Jet Stream Airlines. Please excuse this short delay. Due to our special low bargain fares, all our agents are busy assisting other callers. All calls will be answered in turn. Please stay on the line, and an airline representative will be with you shortly. Here's a tip for busy travelers. When planning your trip, don't forget to allow plenty of time to arrive at the airport. Improved airport security means longer lines when passing through security control. Domestic travelers should plan to arrive two hours before their scheduled departure time, while international travelers should arrive three hours ahead of time.

Questions 83 through 85 refer to the following announcement.

Good afternoon. I want to welcome you all to our management improvement luncheon. We have a delicious meal to look forward to. The catering staff here at the club always makes our noon events special. We also have a fantastic speaker with us today. Mr. Andrew Margalis worked as a management trainer for twenty years before he retired. He has given seminars all over the country and in several places abroad. Now he works only in his garden, but I am pleased that he has honored us by agreeing to be here today. He will share his experiences as a manager and lead us through some exercises designed to help us evaluate our effectiveness with our staff. And now, without further ado, I give you Andrew Margalis.

Questions 86 through 88 refer to the following business report.

This area is for authorized personnel only. You must have a special pass to enter the area. Passes may be obtained at the Security Office upon presentation of a valid driver's license. PART 3 (PAGES 52–54)

Questions 41 through 43 refer to the following conversation.

- Woman* My plane is at seven, so I'll have to leave the office around five-thirty. That should give me enough time to get to the airport, don't you think?
- Man* Actually, I think you should leave earlier. Rush hour starts at five. The traffic will be really heavy by five-thirty.
- Woman* Yes, you're right. Maybe I'd better plan to leave at four.
- Man* That's a much better idea. And, look, you'll need something to read on that long flight. Take these newspapers with you. I've already read them.

Questions 44 through 46 refer to the following conversation.

- Man* Do you have any cash on you by any chance?
- Woman* Well, yes, I went to the bank this afternoon, but I only have about forty dollars.
- Man* Great. That's plenty. Could you lend me fifteen until tomorrow? I'm in a rush to get to a meeting, and I need some cash to pay for a taxi.

Woman Well, all right, but promise you'll pay me back tomorrow, not next week or the week after.

Questions 47 through 49 refer to the following conversation.

- Woman* I really don't want to see a Western or a murder movie. I'm tired of violent movies. Isn't there a comedy playing? That's something we'd both enjoy.
- Man* Let's see . . . the next movie starts at 7:30. Oh, but it's a war story. More violence.
- Woman* Then let's just stay home. I'm sure we can find something good on TV to watch.
- Man* No, I don't want to do that. I'm tired of staying home. I want to go out. Let's have dinner at that place around the corner. We haven't been there in a while.

Questions 50 through 52 refer to the following conversation.

- Man* Please let everyone know that Wednesday's meeting has been postponed for two days. And please do it as soon as possible. They should know about this right away.
- Woman* So you want me to tell them that it'll be on Friday instead?
- Man* Yes. I'm sorry to have to do this at the last minute, but I just found out that Ms. Schmidt is still out sick, and we can't have a budget meeting without our accountant. What would be the point?
- Woman* I guess you're right about that. I'll make sure the conference room will be ready. And I'll call everyone about the meeting to make sure they get the information on time. It's more reliable that way than by e-mail.

Questions 53 through 55 refer to the following conversation.

Woman I'm sorry I'm late again. I ran out of gas. Can you believe it?

Man You should take the bus. Then you wouldn't have to worry about gas or flat tires or anything like that. Or, even better, get up earlier and walk. That's what I do. I walk to work every morning.

Woman Well, I tried taking the bus yesterday, and I got here even later than I do when I drive because it has to stop at every bus stop. It takes forever.

Man See? Walking's the fastest way. It only takes me 45 minutes to get to work. And I always arrive feeling relaxed and energized.

Woman Well, it would take me a lot longer than it takes you. I'd have to train before I could walk that fast, and anyhow, I live a lot farther away than you do.

Questions 56 through 58 refer to the following conversation.

Man Oh, no. I don't have my glasses. I think I must have left them on the desk in your office.

Woman I'll wait for you here while you go back and look for them. Here, you'll need my keys. My office is locked.

Man OK, thanks. Hold onto my briefcase for me, and don't wait here. I'll catch up with you at the car. It will only take me a minute.

Woman All right. I'm parked right across the street, in front of the post office.

Questions 59 through 61 refer to the following conversation.

Man It sure is hot today. You could fry an egg on the sidewalk. I can't remember the last time it was this hot in April.

Woman I know. It's usually cooler this time of year.

Man Well, I can't complain. Since I sell ice cream, this heat's good for business. I've been doing really well all week.

Woman That's good for you. And I get to stay cool by working in an air-conditioned office all day, so that's something.

Questions 62 through 64 refer to the following conversation.

Woman What a handsome suit. I've never seen you wear it before. Did you buy it somewhere around here?

Man No, I bought it when I was in Hong Kong last spring. The shoes, shirt, and tie I already had. Do you think they look good together?

Woman They look very nice. The whole outfit looks great. That color tie really goes well with the suit. Did you get it in Hong Kong, too? It's really unusual looking.

Man No, I don't remember where I got the tie, but I make a point of buying all my suits when I go out of town. The suits at these local department stores are too expensive and, in my opinion, not very attractive.

Woman I know what you mean. I don't much like going shopping around here, either. The choices are not very good.

Questions 65 through 67 refer to the following conversation.

- Man* I'm going hiking in the mountains for my vacation.
- Woman* Hiking? That's energetic of you. After working as hard as you do, I would think you would want to spend a few weeks just lying on a sunny beach reading a good book.
- Man* I'm tired of lazy vacations by the sea. I like to be active when I take a vacation. I'm really looking forward to three weeks walking in the mountains.
- Woman* Wow! That's a long time. Are you leaving soon?
- Man* Yes, on Sunday. Just two days away. I can't wait.

Questions 68 through 70 refer to the following conversation.

- Woman* I think we've got the transportation plan worked out. We have four buses to take people from the hotel to the convention center. That should be enough, don't you think?
- Man* Yes, I think so. It takes five minutes to load one bus and ten minutes to make the trip, so we could plan to have one bus leave every fifteen minutes.
- Woman* That sounds like a good schedule. Each bus could make the round trip in thirty minutes, and no one would have to wait too long for a ride. Then we won't have to worry about anybody's ruffled feelings.

Mr. Smith is survived by his son, Wilton K. Smith Jr., and two grandchildren. Don't expect his survivors to take over his business, however. Mr. Smith was estranged from his son and grandchildren for many years, and he left his entire estate to his dog, a spaniel named Charles. Man's best friend inherited over two million dollars. Will he continue his deceased owner's business, or invest it all in dog food? That remains to be seen. Funeral services for Mr. Smith will be held next Sunday at one o'clock at Brown's Funeral Home on Third Street. The dog is expected to attend.

Questions 95 through 97 refer to the following message.

Good morning. I'm calling regarding a problem with my order. I haven't received it yet. My name is Gina Rotelli and my order number is SBB-934. I made a big order of office equipment, including one computer monitor, one box of disks, and three ink cartridges for my laser printer. I also ordered two packages of printer paper and, let me see, oh yes, a box of manila envelopes and fifty ball-point pens. I was promised delivery within two weeks of the date I placed the order, but it still hasn't arrived. I placed it four weeks ago, on July 17th, to be exact. I paid for the items with my credit card, and the amount has been charged to my credit card bill. Questions 98 through 100 refer to the following news report.

The innovative computer company CompCo celebrated its opening today at its new facilities in the Montrose Park neighborhood of the city. As part of the celebration, CompCo gave a tour of its facilities to local dignitaries and hosted a banquet inside its new training center. CompCo has hired 100 employees who will start work at their new positions this week, and plans to hire fifty more before the end of the year. This is wonderful news for our city, which is still struggling after the closure of PC Computer Systems three years ago. Two hundred employees lost their jobs when PC left our city. The loss of businesses like PC has had a significant impact on the local economy. The city leaders are working to attract more technology businesses to the area and are currently negotiating a deal with the Intrax Company. The opening of CompCo is an optimistic start to reviving industry in our city.

PART 3 (PAGES 94–96)

Questions 41 through 43 refer to the following conversation.

Woman There wasn't room in the lot next door, so I parked in the garage across the street, but I can't believe how expensive it is. They're charging me five dollars an hour.

Man That's really not much for parking around here. Most places charge more than that. Anyhow, let's get moving. It's late.

Woman What time does the concert start?

Man The musicians will start playing in about two minutes. Come on. Walk fast! I want to get there before the music begins.

Questions 44 through 46 refer to the following conversation.

Woman You didn't call last week like you promised. I hope you weren't sick.

Man No, I'm sorry. It must have just slipped my mind.

Woman Well, if you had called, I would have invited you to my party last Saturday.

- Man* Oh, that's right. It was your birthday! And I missed your party. Let me make it up to you. I'll take you out to dinner tonight. We'll go to that new French restaurant downtown.
- Woman* Why, thank you. That's very sweet of you. It sounds lovely.

Questions 47 through 49 refer to the following conversation.

Man Were you home last night? Did you watch TV?

Woman No, I was out having dinner with some friends. Did I miss a good program?

Man Yes, there's a great comedy on every Wednesday at six. You know, that one that everyone is always talking about. It's really funny.

Woman I know the one you mean, but I've never had the chance to see it. Six o'clock is a bit early for me to watch TV. I usually don't get home until seven.

Questions 50 through 52 refer to the following conversation.

Man We only grow vegetables here. It's a small place, and we don't really have room to expand into other crops like fruit trees or flowers. But it's a nice little business.

Woman Yes, it seems like you've got a good thing going here. How long have you been running this place?

Man For 13 years. Farming's not an easy life, but it sure beats getting in the car and driving to an office every day like I used to do.

Woman You don't have to tell me! I'm starting to get sick of that life, too. Living out here in the country is starting to look like a much healthier lifestyle to me.

Questions 53 through 55 refer to the following conversation.

- Man* This is the most boring play I have ever seen. Who told us to come see it?
- Woman* I really don't remember, but we don't have to stay to the end if you don't like it. We can leave if you really want to.
- Man* All right. Let's leave now before I fall asleep and start snoring.
- Woman* All right, all right, calm down, we'll go. Though I really think it's a shame to waste these seventy-five dollar tickets.
- Man* What? You paid that much for us to see this play? Next time, why don't we just rent a movie for two-fifty and stay home. I'm sure I'll enjoy that a lot more.

Questions 56 through 58 refer to the following conversation.

- Woman* All right, now. Before you step up to the tee, take one practice swing.
- Man* I know. And keep my eye on the ball. I remember everything you've told me.
- Woman* Good. And don't throw your club. That won't help matters at all. If you miss the ball, just stay calm and try again. You don't want to lose your concentration, so it's really important to stay calm.
- Man* All right, all right. I get it. Will you be quiet now so I can try hitting the ball?

Questions 59 through 61 refer to the following conversation.

- Man* I guess I should leave for the airport soon. My plane takes off at three-thirty, and I'm supposed to be there at least an hour ahead of time.
- Woman* You'd better get going, then. It's almost one o'clock. If you leave now, the subway should get you there in plenty of time.
- Man* Yes, but I don't think I want to go on the subway with all my luggage. I'll take a taxi instead. It'll cost more, but I think it's better.
- Woman* You're right. It'll be much easier for you that way. You'll be back Sunday morning, right? I can pick you up at the airport then if you want me to.

Questions 62 through 64 refer to the following conversation.

- Woman* Is this elevator going up or down?
- Man* It's going up. What floor would you like, please?
- Woman* I need the furniture department on floor 7. And hurry. There's a great sale there today, and I don't want to miss it. I'm planning to refurbish my whole apartment.
- Man* Relax. The sale lasts all week. It started on Monday and won't be over until Friday, and you'll be there in less than a minute.

Questions 65 through 67 refer to the following conversation.

- Man* Come on, stop it, don't get me wet. I'm really not in the mood for a swim.
- Woman* You'll like it once you get in. I promise. Come on, I'll race you across the pool.
- Man* I really don't want to. I'm too cold to get in the water. You go ahead without me.
- Woman* Oh, just try it once. It's fun. Once you start moving, you'll warm up.
- Man* I mean it. I don't want to. Go on and enjoy yourself and I'll meet you back at the car.

Questions 68 through 70 refer to the following conversation.

- Woman* You two go in your car. I know where the restaurant is, so you can follow me.
- Man* OK, but don't drive too fast. I don't want to lose you on the road. We don't have to be there for another fifteen minutes, anyhow.
- Woman* Don't worry. I'll drive really slowly so you won't get lost. There's no parking at the restaurant, so you should try to park in front of the bookstore. You can usually find a space there.
- Man* I don't want to park on the street. Isn't there a garage at the hotel?
- Woman* Yes, I think there is, but there's a charge for parking there, and I'm sure it isn't cheap. But go ahead and put your car there if you want.

- Woman* There should be some in the cabinet over the sink. That's where we usually keep them.
- Man* I already looked there. You must be all out of cups. I guess I'll have to go down to the coffee shop and get a cup of tea there.
- Woman* Oh, you wanted hot drink cups, not water cups. I have some right here in the supply closet. There's sugar in here, too, if you want it, and there's milk in the refrigerator.
- Man* OK, great. Thanks. Now, is there something I can use to heat the water up in?

Questions 44 through 46 refer to the following conversation.

- Woman* Here's your key, Mr. Smith. You're in room three ten on the third floor. The elevator is just over there. Oh, and check-out time tomorrow is at noon.
- Man* That won't be a problem. I'll need to leave here by 5:30 in the morning to catch an early flight.
- Woman* Will you need a wake-up call, then?
- Man* Yes, please. Could you have someone call me at 4:45? And since I'm leaving so early, I'll just go ahead and settle my bill now.

Questions 47 through 49 refer to the following conversation.

- Man* I know I'm late. I'm sorry. I left home early, but traffic was tied up all over the city because of the weather, and my bus was late again.
- Woman* That may be, but this has really gone too far. It's the third time this month that you've been late. It's getting to be a bad habit with you.
- Man* I know. I'm sorry. I'll come on time tomorrow, even if it means getting up at five. I promise I'll be on time for the rest of the week.
- Woman* Let's hope so because if this happens again, we'll have to do something about it.

Questions 50 through 52 refer to the following conversation.

- Woman* I need a screwdriver. Do you mind if I borrow yours?
- Man* Go right ahead. It's in my toolbox in the closet, but please don't forget to return it soon. I don't want to lose it, and I'll need to use it later, anyhow.
- Woman* Don't worry. You'll have it back before lunch. I just need it for a few minutes to tighten up some screws on this bookshelf.

- Man* We always start our vacation the first week of August, and we spend the whole month out of town. We've been doing this for years.
- Woman* You're lucky you can take such a nice long vacation. Two or three weeks really isn't enough, is it?
- Man* No, it isn't. We're renting a house by the lake this time. I'm really looking forward to swimming everyday.
- Woman* Well, to each his own, I guess. I like to spend my vacations traveling to different cities. I like to be in a different place each day.
- Man* I find it more relaxing to stay in just one place. I remember when I was young, we always spent vacations at the lake. That's why I like to go there now.

Questions 56 through 58 refer to the following conversation.

- Woman* Could you help me choose some long-sleeved shirts for my husband? He takes a size sixteen. It's for his birthday, so I'd like to find something really nice.
- Man* Would you be interested in these? They're one-hundred percent cotton, and look how nice the details are. They're on sale this week for just 25 dollars apiece. That's a real bargain for shirts as nicely made as these.
- Woman* They're just right. That stitching around the cuffs and collars is very nice. I'll take two of the gray ones.

Questions 59 through 61 refer to the following conversation.

- Man* OK, now get in the left lane because you'll have to turn left at the next intersection. That's the street that goes toward the concert hall.
- Woman* But I can't turn left there. It's one way going to the right. Don't you see the sign?
- Man* Well, now what are we going to do? We don't have time to be driving around in circles. It's already 6:45, and the concert starts in 15 minutes. I told you we should've left home earlier.
- Woman* Well, look, there's an open space right here on the corner. Let's just park here and walk. It's not far. We can walk it in ten minutes easily.

Questions 62 through 64 refer to the following conversation.

- Man* Yes, they have. They got here this morning. They're in those two white boxes on the floor of the supply room.
- Woman* Good. They got here just in time. I have to mail a hundred of them to Singapore this afternoon so that they'll have them in time for their conference.
- Man* Well, you'll find plenty there. We ordered a thousand.

Questions 65 through 67 refer to the following conversation.

- Man* Wendy, it's three o'clock. The meeting was at two. Do you realize that's the second meeting you've missed this week? What's going on with you?
- Woman* Why didn't you call me this morning to remind me that it was today? You know what a terrible memory I have, and I have so much on my mind right now with this project deadline.
- Man* I called six times, but I couldn't get through. Your line was busy all morning. Anyhow, the next meeting is on Friday, and you'd better be there.
- Woman* I will be if you call me Thursday to remind me about it.

Questions 68 through 70 refer to the following conversation.

- Man* Do you need me to do something for you? I'm still eating breakfast.
- Woman* Well, after you finish eating, can you drive me to school?
- Man* I don't see why you can't walk. It's a warm sunny day, and you could use the fresh air and exercise.
- Woman* Yes, it's a nice day now, but it might rain later. I heard it on the weather report.
- Man* Well, then, you'll just walk to school now, and if it rains later, you can always take a bus home.

Thank you, Ms. Johnson, for your very informative report. It covered the topic quite thoroughly. I know many of you have questions for Ms. Johnson, but it's about 10:30 now, and we still have several points to cover before we break for lunch. So, before we continue with the next part of our board meeting and the question-and-answer period, why don't we take a short coffee break? Coffee and tea and fruit and pastries are available in the next room. We'll resume in fifteen minutes, and following a short question and answer period with Ms. Johnson, we'll hear Mr. Kim's report on the Harbor Project. I believe he has a slideshow to go along with his report, so it should be quite interesting.

193. (B) Only current clients can get passes. Choice (A) is incorrect because, not being clients, they can't make parking reservations. Choice (C) is incorrect because all the passes are temporary. Choice (D) is incorrect because being from out of town is a requirement for getting a pass.
194. (A) The message from Eva mentions a possible place for conference attendees to park that is open on weekends. Choice (B) is incorrect because the conference is in mid June, not the beginning of June. Choice (C) confuses *July* with *June*. Choice (D) is the amount of time it takes to walk to the parking garage.
195. (C) The message says that Eva is expecting at least 60 people. Choice (A) is confused with the 30 people who haven't responded to the invitation. Choice (B) is confused with the 50 people who have already said they will attend. Choice (D) is 30 plus 50.
196. (A) The traveler mentions that he wanted to travel on the weekend of the third, but the website says that there is a black-out period October 2–4. Choice (B) is contradicted by the correct answer. Choice (C) is not mentioned. Choice (D) is true, but the traveler doesn't apologize for this.
197. (D) He says *I will assume that one of you will meet me at the airport*. Choice (A) is confused with the shuttle bus mentioned on the website. Choice (B) is what he says he doesn't want to do. 198. (A) Mr. Lim will discuss a franchise and possibly work out a deal, so it is a business trip. Choices (B), (C), and (D) are contradicted by the correct answer.
199. (C) The ad mentions only a single room, and Mr. Lim booked a double room. Choices (A) and (B) both describe the hotel and room advertised and booked. Choice (D) is incorrect because Mr. Lim's reservation was made by the travel agency that owns the website.
